

**NO SCRUB
NO RINSE**

SHOTGUN

LIQUEFYING STRIPPER

Product # 114

DESCRIPTION

SHOTGUN is a 55% active speed stripper that easily cuts through multi-layers of burnished floor finish. This "true" no rinse stripper does not contain potassium hydroxide or sodium hydroxide yet is the fastest working liquefier on the market. Low foaming and no rinse features make this product a must for all professional floor care systems. Saves time and labor because it does not require rinsing.

USAGE

Recommended for commercial, institutional and industrial use. For the rapid removal of all floor finishes and waxes from resilient flooring including: vinyl, vinyl composites, asphalt, linoleum and rubber tiles. Also ideal for finished non-resilient such as: terrazzo, marble, ceramic, quarry tile, concrete and poured epoxy flooring. Can be used in automatic scrubbing equipment.

DIRECTIONS

Mop/Wet Vacuum Stripping System. Dilute in cold or mildly warm water from 1 part product to 2 parts water for heavily built-up or highly burnished finishes, to 1 part product to 5 parts water for normal build up. Apply liberally with a mop to an area small enough, so as not to allow the product to dry and allow to stand for 3 to 5 minutes. Agitate with a mop and remove solution and old finish with a wet vacuum. Allow floor to dry thoroughly and apply new finish as directed by manufacturer. If complete stripping is not accomplished, repeat above procedure before re-application of new finish.

Floor Machine Stripping System. Dilute and apply product as above using a dilution of 1 part product to 16 parts water varying according to build-up conditions. Product may be applied with a mop or Automatic Scrubber. Allow to stand for 3 to 5 minutes. Scrub with a rotary floor machine or automatic scrubber equipped with stripping pads. Remove solution and old finish with a wet vacuum and allow floor to dry completely. If desired, a rinsing step can be added. Apply new finish as per manufacturer recommendation.

Note: As some asphalt tiles may be damaged by prolonged soaking in concentrated strippers, a spot test is recommended before use.

PRODUCT SPECIFICATIONS

APPEARANCE	Light yellow liquid
FRAGRANCE	Mild
pH IN CONCENTRATE	11.0
FLASH POINT	None, non-flammable
WATER SOLUBILITY	Complete
RINSING PROPERTIES	Free Rinsing
FINISH REMOVAL	Excellent
LOW FOAMING	Yes
SHELF LIFE	1 Year in unopened container
PACKAGING	55, 35, 15 Gallon drums 5 Gallon pails Cases of 6/1 and 4/1 Gallon jugs

SAFETY INFORMATION

KEEP OUT OF REACH OF CHILDREN. DO NOT TAKE INTERNALLY.

CAUTION: MAY BE HARMFUL IF SWALLOWED.

FIRST AID

SKIN: Wash thoroughly with soap and water. If irritation persists, get medical attention. **EYES:** Flush thoroughly with water for at least 15 minutes, occasionally raising eyelids.
