

Pen-Wet

**NON-IONIC
WETTING AGENT
FOR SOILS**

Best Wetting Agent on the Market!

Product # 380

DESCRIPTION

PEN-WET is a non-ionic wetting agent for soils that can be used for turf conditioning, dust control and fire fighting. Some soils, known as hydrophobic soils, are difficult to wet because they repel water. The infiltration of water into these soils can be improved by applying a non-ionic surfactant or wetting agent. Hydrophobic soils can cause problems on golf courses and other turf areas, in nurseries and greenhouses, and in open fields. PEN-WET improves soil wetting and penetration of treated irrigation water. PEN-WET can be added to fertilizer, pesticides, soil supplements and iron solutions to increase their penetration and effectiveness.

BENEFITS

- * HELPS INCREASE THE EFFECTIVENESS OF SOLUTIONS APPLIED TO THE SOIL
- * GIVES UNIFORM COVERAGE OF PRODUCTS APPLIED AND ACTS AS A STICKER
- * PREVENTS EXCESSIVE RUN-OFF, AIDS IN DEW ABSORPTION
- * PREVENTS DRY SPOTS SHOWING ON TURF AND FIELDS

USAGE

Recommended for commercial, institutional, industrial as well as household use.

DIRECTIONS

Dilute 1-2 quarts of PEN-WET in 100 gallons of solution to be sprayed. Can be added to fertilizer, pesticides, soil supplements & iron solutions. Desired results obtained when Pen-Wet makes up $\frac{1}{4}$ - 1% of finished solution.

PRODUCT SPECIFICATIONS

APPEARANCE	Clear liquid
ODOR	No odor
FLASH POINT	> 220° F
pH (10% Aqua Sol.)	9.5
WEIGHT / Gallon @ 77°F	8.5 Lbs
WATER SOLUBILITY	Total
SHELF LIFE	1 Year in unopened container
PACKAGING	55 Gallon drums 5 Gallon pails Cases of 6/1 and 4/1 Gallon jugs

SAFETY INFORMATION

KEEP OUT OF REACH OF CHILDREN. DO NOT TAKE INTERNALLY.

CAUTION: Avoid contact with eyes and prolonged contact with skin.

FIRST AID

SKIN: Wash thoroughly with plenty of soap and water. **EYES:** Immediately flush eyes with plenty of water for at least 15 minutes, lifting eyelids occasionally. Seek medical attention. **INGESTION:** Do not induce vomiting. Seek medical attention immediately.
