

HULL & BOTTOM CLEANER

REMOVES BARNACLES & RUST OIL, STAINS, ALGAE

DESCRIPTION

Barnacles can be a big problem on a boat hull, reducing the speed of your boat in the water and causing you to burn more fuel. Barnacle Buster is a powerful biodegradable chemical to remove barnacles, mussles and other marine growth from the hull and bottom of boats with little scrapping. Barnacle Buster can safely be recirculated through sea water cooling systems to dissolve barnacles, mussles, calcium, rust, lime and other mineral deposits. Formulated specially for fiberglass. Barnacle Buster does not harm the gel coat.

USAGE

Recommended for commercial, institutional and industrial use.

DIRECTIONS

For hulls and parts: Apply Barnacle Buster full strength on area to be cleaned with a natural or nylon bristle brush. Let Barnacle Buster work for 2-4 minutes, then rinse with water.

For heavily encrusted areas let Barnacle Buster work for extra five minutes and lightly scrape the surface with a plastic scraper. Repeat process if necessary.

For sea water systems: Dilute one part Barnacle Buster to four parts of water. Recirculate for at least one hour. Flush with fresh water.

PRODUCT SPECIFICATIONS

APPEARANCE Milky liquid FRAGRANCE Slight mint odor

рΗ 1.0

FLASH POINT None, non-flammable

WATER SOLUBILITY 100% RINSING PROPERTIES Free Rinsing **ABRASIVES** None **BIODEGRADABLE** Yes

SHELF LIFE 1 Year in unopened container **PACKAGING** 55, 35, 15 Gallon drums

5 Gallon pails

Cases of 6/1 and 4/1 Gallon jugs

SAFETY INFORMATION

KEEP OUT OF REACH OF CHILDREN. DO NOT TAKE INTERNALLY.

CAUTION: Contains acids. Harmful or fatal if swallowed. Use in a well ventilated area and use rubber gloves and goggles. Avoid contact with eyes, skin, clothing and mucous membranes.

FIRST AID

SKIN: Flood with water for 15 minutes. Then wash with magnesia or baking soda. If irritation develops, seek medical attention. EYES: Flush immediately with water for at least 20 minutes. Seek medical attention immediately. **INGESTION:** Drink large quantities of water or milk. Do not induce vomiting. Seek medical attention at once.
